## RELEVANT EXPERIENCE

### Frontend Web Developer • Victory Christian Center • Tulsa, OK

Jul 2024 - Current

- Developed responsive, user-friendly UIs using Next.js, TypeScript, and Tailwind CSS, improving usability and accessibility across devices
- Built and integrated RESTful APIs to support dynamic forms, internal tools, and cross-department data sharing
- Managed CI/CD pipelines and deployed production builds to Microsoft Azure, enabling reliable and consistent updates
- Implemented Redis caching to improve API response time, reducing latency on endpoints using YouTube Data API and Google Geolocation API

### Student Tutor • Atlas School • Tulsa, OK

Sep 2023 - Apr 2024

- Conducted live coding sessions on advanced topics, including Docker, jQuery, pointers, and recursion, engaging over 20 participants in hands-on learning.
- Demonstrated the differences between DOM manipulation and jQuery to highlight the evolution of frontend development practices.
- Supported peer learning through manual reviews of projects and conceptual guidance.

## PROJECT EXPERIENCE

### Frontend Architect • [Trove](#)

Oct 2024 - Dec 2024

- Designed a scalable front-end architecture for a multi-page application using Next.js, Typescript and Tailwind CSS.
- Enhanced user experience by implementing optimized state management with React hooks, handled complex data flows and form logic

### Full Stack Developer • [Cinema Guru](#)

Oct 2024

- Translating Figma Design to fully functioning Next.js app, GitHub OAuth authentication
- RESTful API, dynamic filtering, pagination, 'Favorites', and 'Watch Later' features

### Full Stack Developer • [Atlas Kanban Board](#)

Sep 2024

- Built a Trello-like Kanban board using React and Redux, featuring drag-and-drop functionality, global state management, and state persistence.
- Implemented advanced Redux techniques to manage lists and cards efficiently, ensuring state persistence via local storage without a backend.
